DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-32, 73-106 and 110-125, drawn to a capacitor, classified in class 257, subclass 532.
- II. Claims 33-72 and 107-109 drawn to a method of forming a capacitor, classified in class 438, subclass 957.

The inventions are distinct, each from the other because of the following reasons:

Inventions II and I are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case instead of patterning to form the layers, they could be formed by selective deposition.
